

FOOT PUMPS

Foot pumps can be used to inflate a device or dispense fluids. They can be combined with a variety of valves, adaptors and tubing to accommodate your needs. Our pumps are made from medical-grade Sarolit™ and are not made with BPA, phthalates or latex. Our products are also made in one piece using the rotational molding process so that there are no bonded seams, which could fail during service or foster bacterial buildup.

This product is currently offered in the standard colors listed in the table. It can be made in any of the colors listed below or a custom color at customer request. Products can also be printed with customer logos or otherwise modified to meet customer specifications.

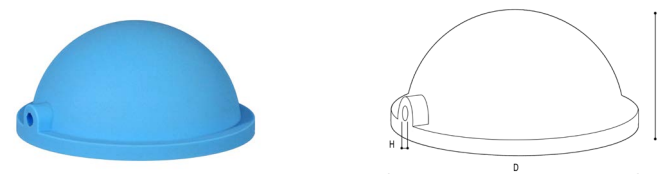

- 01- white
- 02- pink
- 03- light blue
- 04- black
- 05- red
- 06- kelly green
